# Interactions Through Digital Media Can Have Real Impact

What we do online can have a real impact.

We can help people or hurt them. We can make the world better or worse.

But sometimes we can feel like we're invisible or not really there, and forget that what we do matters.

Because we can't see people's faces or hear their voices, we can't always tell if something we've done made them happy, angry or sad.

***Think about a time when something online was misunderstood - either by you or someone else.***

***How can you avoid hurting people's feelings by mistake?***
