# Navigate Online Privacy and Security

Practice Sheet

Keep accounts and devices secure

Refresh your memory by watching this video: www.bit.ly/navigateonlineprivacy

Then see if you can answer these questions:

1 Why is two-factor authentication safer?

2 What are some places you might use public WiFi?
What are some things you should *never* do on public WiFi?

3 What does Incognito mode do?

4 How do you turn off each of these?

BLUETOOTH

GPS

AIRDROP
(MAC/IPHONE ONLY)

ON DIFFERENT BROWSERS, INCOGNITO MODE IS CALLED:

Firefox: Private Window

Edge: inPrivate Window

Safari: Private Window

FREE ANTIMALWARE PROGRAMS

Windows Defender

Malwarebytes

AVG
